

Worker Recruitment Support

We help our customers to find a Support Worker who shares their interests and suits their needs.

Before choosing a Support Worker, we encourage our customers to identify the attributes and skills they require in a carer and then help them with finding someone who's the right match for them.

We support our customers to recruit a specific carer by:

- = placing advertisements for the position
- = receiving applications and conducting interviews
- = facilitating the induction and onboarding process
- = understanding your needs and how best to work with you.

Talk to us

Contact one of our friendly staff at Lifestyle Solutions on 1800 634 748 for more information.

You can access Worker Recruitment Support by asking your Local Area Coordinator to include it in your NDIS plan.
