

Specialist Disability Accommodation (SDA)

The Parc apartment complex is located in the beautiful suburb of Macquarie, ACT. With predominantly owner occupancy across the complex, you will be moving into a supportive community with many activities and opportunities for building connections with neighbours.

Being just across the road from Jamison Plaza, you will have easy access to a great range of shops, cafes and medical centres. On the ground floor of the complex, you will find a chiropractor, physiotherapist and cafes.

Accommodation features

The apartment features a double bedroom with large windows and direct access to the well-appointed balcony. A second bedroom allows you to have overnight in-unit support if required, live with or invite friends and family over to stay.

Alternatively, the second bedroom could make a great study or extra storage space. This apartment features an oversized accessible bathroom and additional guest bathroom, for your day-to-day comfort. The home bathes in natural light and feels bright, modern and homely.

Functional and smart, this home comes pre-fitted with a range of assistive technology, including automated electric front door, automated lighting throughout, a fully electric adjustable kitchen bench with integrated cooktop, air conditioning, backup battery power and a state of the art emergency response system.

About our support

On-site overnight assistance (OOA) support services are accessible, located in a separate apartment in the complex if you do not require full-time support in your own unit.

For more information

These units are ready for occupancy, so this is an amazing opportunity for those who require purpose-built SDA high physical support living arrangements.
